

# SECTION 6

## Presentation Evaluation Specifications

### Rubrics Evaluations

Presentations will be evaluated using a rubric that measures specific presentation skills for each public presentation format. The rubric supports a standardized evaluation according to specified criteria, making evaluation simpler and more transparent.

A good presenter performs well in all skill categories. Each major skill for the presentation format is listed in the left-most column of the evaluation rubric. Points are earned for each skill based on performance of that skill. To find the overall quality of the presentation, total the skill scores and then compare with the scoring chart at the bottom of the evaluation rubric.

### Awards

Ribbons for the public presentation competition will be based on the Danish Ribbon System. The point rating system for Blue, Red and White ribbons are on the bottom of the rubric. Top awards for each presentation category will be based upon the ranking of rubric scores.

### Practicing with Rubrics

Practice your presentation using the evaluation rubrics to improve presentation skills. Have a parent or leader score your practice presentation with the rubrics. Once completed, compare your results and focus your practice on the areas that need improvement. After completing each competition, compare rubric scores to previous ones and keep practicing to maintain skills and performance quality.
