Fair: Discussion re Fair Book Changes

Remove Foam Board requirement- Stephanie Horseman brought out that in prior years photos were entered in frames and Stephanie Johnson brought up that the foam board was added to help cut on project costs.

Add Open Class for Photography- this was not well met, as would lead to possibility of more Open classes, which would then allow kids to enter items but not take the project. Discussed possibility of getting rid of all Opens but Crafts and Hobbies and expanding definitions so members would know they can basically enter anything here they want.
