The Senior Honors Thesis is an independent research/creativity project that enables Honors students to synthesize what they have learned. It should be of graduate level caliber and ideally of publishable merit. This project **may not** be a duplicate of a paper/project submitted for another class anytime during your academic career. However, you may use a previous or current paper/project as a starting point for your Honors thesis. Please indicate the duration and credits desired on the lines below (1-6 credits/semester). In the proposal, describe the nature of the project, outline the groundwork necessary, provide a timeline and planned meetings/interactions with your thesis advisor, and indicate the project deliverable(s) and expected results. A copy of the final thesis will be submitted to the Honors College and may be used by the Honors College for educational and internal purposes.
